

Connect your MPI devices.
Just what you need.

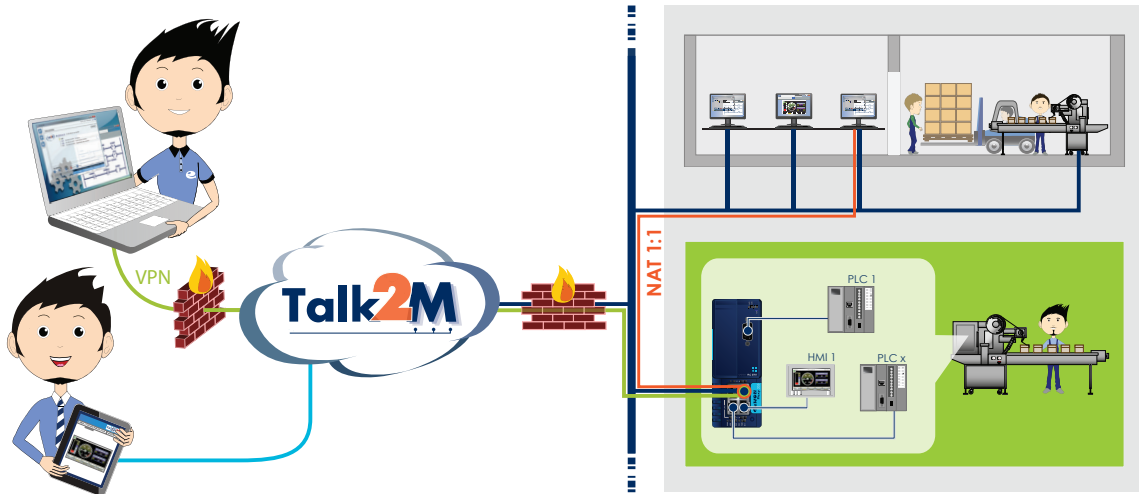

MPI

for
Flexy 205

MPI fieldbus connectivity

The MPI extension card offers Machine Builders, System Integrators and OEMs the ability to remotely access and retrieve data from PLCs with an MPI port. This extension card is the perfect link for any MPI PLC, providing transparent gateway functionality between the ISOTCP and the MPI/Profibus (S7) protocols.

The MPI extension card is only dedicated to the eWON Flexy 205.

Technical characteristics:

Number of ports	1	
Physical mode	MPI (1500V galvanic isolation through the power supply isolation from ground)	
Connector	SUBD9 (female)	
Operating temperature	-25 to +70°C	
Certifications		
CE	Compliant with	EMC Directive 2014/30/EU RoHS2 directive 2011/65/EU REACH regulation 1907/2006
	According to standards	EMC: ITE emission Class A and Immunity EN55032; EN55024
	Safety	EN60950
FCC	Compliant with: CFR47, part 15B class A	
Safety	Conform to	EN60950-1 CB Certificate n° DK-53957-A1-UL

Ordering Ref.:

FLC3701

About Flexy 205:

The eWON Flexy 205 is an industrial IoT router and data gateway designed for Machine builders OEMs and system integrators. This flexibility provides a link to remote devices, especially in an industry with constantly changing communication technologies. Regardless of the protocol used, stay connected to your field equipment.
