RZVFZ1010

VESA Wall Mount

◆ **Features**

A steel bracket used to attach the touch panel to a wall.
1. The rear enclosure of the unit is only 1cm away from the wall.
2. Pre-determine the position of the unit, and firmly fix the unit to the wall. Two pre-existing screw holes can be used to fix the unit to the bracket.
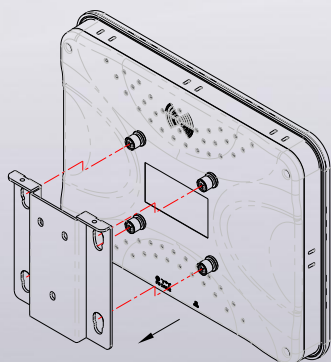

◆ **Applied Models**

All models with VESA mounting hole pattern 75x75mm.

◆ **Installation**

1. Install the mounting sleeves on the HMI unit.

Sleeve

M4 x 0.7P x 14L
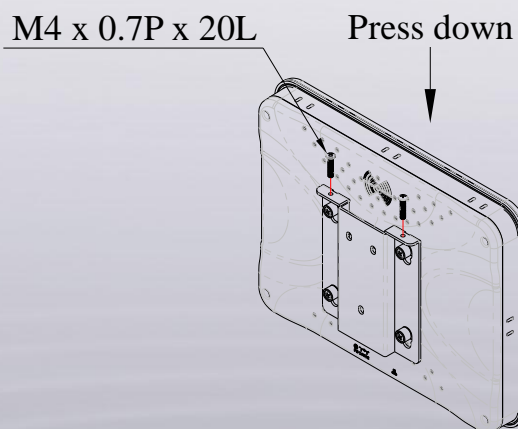

2. Install the mounting bracket on the wall.
   Note: Since the wall material may differ, please prepare the suitable screws. Ø5mm
